PROFESSIONAL SUMMARY

UI/UX Designer with expertise in user research, interaction design, and user experience optimization. Proficient in design tools including Figma and Adobe XD with strong foundation in user personas, journey mapping, and usability testing. Technical background in full-stack development and system architecture enabling effective collaboration between design and engineering teams. Multilingual professional committed to creating inclusive and accessible digital experiences.

EDUCATION

Aurora Scientific and Technological Institute Bachelor of Technology in Computer Science and Engineering	Nov 2022 – May 2026 Hyderabad, India
Impulse Educational Institution Intermediate, Science (MPC)	Aug 2020 – May 2022 India
Jawahar Navodaya Vidyalaya (JNV) Secondary Education (10th Class)	Jun 2015 – Mar 2020 Siddipet, India

TECHNICAL SKILLS

Design Tools: Figma, Adobe XD

Design Skills: Wireframing, Prototyping, Interactive Mockups, Design Systems, Responsive Design, Interaction Design

UX Research: User Research, User Personas, User Journey Maps, Usability Testing, Information Architecture, Accessibility Standards

Development Basics: JavaScript, React, Git, VS Code

Methodologies: Agile Development, Design Thinking, User-Centered Design

Languages: English, Hindi, Telugu (Professional), Marathi (Native)

PROJECTS

Blockchain-Based Digital Credentialing System

- Designed and developed a complete user interface from scratch for a decentralized system to issue, verify, and manage academic certificates using blockchain technology.
- Created interactive prototypes and mockups in Figma to visualize the certificate issuance and verification workflows.
- Built a design system with reusable components and established design patterns to ensure consistency across the platform while preventing forgery and ensuring tamper-proof verification.

INTERNSHIP

UI/UX Design Intern May 2026 – Present
Student Tribe Madhapur, Hyderabad, India

- Conducting user research through interviews and analysis to understand user needs and pain points in digital product design.
- Creating detailed user personas and user journey maps to guide design decisions and inform product strategy.
- Performing usability testing and research-driven design iterations to optimize user experience and interface effectiveness.
- Collaborating with cross-functional teams to translate research insights into intuitive, user-centered digital interfaces aligned with industry standards.
